

The Invisible Ring

By: Trinity Liu 5C

“Nice hair!” I whispered as I looked into the mirror. Suddenly, something shiny caught my eyes. From the reflecting of the mirror, I spotted a ring on a vanity desk behind me. I instantly turned around, but nothing was there! Feeling puzzled, I looked at the mirror again —the ring was right there! This time, I moved backwards to the desk while keeping my eyes on the mirror. I grabbed the ring with my right hand, however, nothing was seen when I checked my right palm.

I freaked out and ran out of the restroom, leaving a mystery behind forever.
