

Fireworks

By Christie Mok 5F

I had an awesome time in Chinese New Year. There is one thing I will definitely cherish forever, which is playing fireworks in China. At first, I was super nervous and skeptical about it because I was scared that I would burn my hands since you light it up with fire. On the other hand, I was also excited. When I light up the firework, I was astonished! The sound of fireworks is like music to our ears, filling us with joy. While playing fireworks are fun, we always need to be extra cautious, don't let extreme joy begets sorrow.
