GET READY FOR THE EXCITING TALE OF MOON, THE  
TINY BLACK CAT WHO HAS AN ADVENTUROUS TALE  
AHEAD FOR YOU!

By Keira Leung

There was once a girl called Sydney. One day, she was walking back home when she saw a small black she-cat.

It looked like it had no owner, so Sydney carried her home and adopted her as her family pet.

A few weeks after that, Sydney went camping with her family and bought their new cat, Moon.

That night, a crocodile grabbed Moon. But Moon  
meowed so loudly that Sydney woke up.

Sydney grabbed her flashlight and shone it into the crocodile's eyes.

The crocodile immediately let go and Moon was saved!

And they lived happily ever after!
