Once upon a time, there is a Princess called “the Rainbow Princess”. She goes to the garden and waters the plants. The plants blossom and they become rainbow flowers. Later on, a big rainbow rises in the sky, from the flowers. It is wonderful.

The black Evil Queen sees the beautiful rainbow. She does not want it. She just wants to rain. She uses her power to make everywhere dark and rain. The Rainbow Princess is sad. Her Unicorn friends then help the Princess to water the flowers all over the kingdom. The rainbow is back again. All are happy.
